Michael Rudman, MD

Dedicated to helping those suffering from acute or chronic pain, Dr. Rudman works every day to improve his patients' quality of life. Together with partner Dr. Richard Winne, physician associate Dr. Terrence Welsh, and nurse practitioners Megan Filoramo and Jeannine Dannenbaum, the team at New Jersey Pain Consultants provides comprehensive, individualized care. Patients benefit from safe, minimally invasive treatment and innovative technology, as well as rehabilitation services and emotional support, all under one roof. "From the moment patients walk through our doors, every part of the process—from diagnosis through treatment—is designed to address their individual needs," says Dr. Rudman.

Board certified in anesthesiology and pain management, Dr. Rudman is medical director of Morristown Medical Center's pain management division and an annual recipient of *New Jersey Monthly's* Top Doctor honor. This devoted physician

specializes in treating the full range of back and neck pain, including complex regional pain syndrome (RSD). He uses the latest tools and technologies: epidurals, facet injections, radiofrequency ablation and spinal cord stimulation, and works collaboratively with a network of specialists to achieve optimal outcomes.

The practice also has an office in the Pain Management Center at Morristown Medical Center and accepts Blue Cross Blue Shield, Cigna, Oxford, UnitedHealthCare and other major plans, as well as workers' compensation and personal injury protection.

Dr. Rudman says, "There is nothing more satisfying than to see my patients get back to a functional lifestyle."

HOSPITAL AFFILIATIONS: *Morristown Medical Center.*
MEDICAL TRAINING: *Pennsylvania State University (MD); University of Pennsylvania Hospital (residency/fellowship).*
